WHEN EVERY MOVE HURTS

Lame every morning, achy and stiff all day, worse when it's damp or chilly? Suspect your kldneys and try the remedy your neighbors use. Mrs. F. Callander, 1226 Fifth Ave., S. Columbus, Miss., says: "I believe overworking myself brought on kidney trouble. The way my kidneys were acting caused a lot of annoyance. I was confined to my bed ior Red Cross, and all are willing to do for six months at one time and was so helpless I couldn't raise my head from the pillow. Kidney trouble had so undermined my health I couldn't move my hands or feet, I had pain end soreness across my kidneys and didn't sleep well at night, Dizzy spells came over me and I would feel as though I were going to faint. I a took different remedies, but suffered just as badly as ever. Even when I was able to be up my feet were so swollen I couldn't put on my shoes and other parts of my body bloated.

A friend advised me to try Donn's

RESTRICT USE OF FLOUR

United States Pood Administration

Mr. P. M. Harding, Federal Food Administrator, Vicksburg, Mississippi

If we are to furnish the allies with the necessary proportion of wheat, to maintain their war bread from now until the next har-

vest, and this is a military necessity. we must reduce our monthly consumption to 21,000,000 bushels a month, as against our normal consumption of about 42,000,-

000 bushels or 50 per cent of our normal consumption, reserving a margin for distribution to the army and for special cases, leaving for general consumption, approximately one and onehalf pound of wheat products weekly per person.

Many of our consumers are dependent upon baker's bread, such bread must be durable, and therefore, requires a larger proportion of wheat products than cereal breads baked in the households.

Our army and navy require a full allowance. The well-to-do in our population can make greater sacrifices in the consumption of wheat products than can the poor; in addition, our preparation of breads from these other cereals, than the crowded city and industrial populations. With improved transportation conditions we now have available a surplus of potatoes. We also have in the spring months a surplus of milk, and we have ample corn and oats for human consumption.

The drain on rye and barley as substitutes has already greatly exhausted the supply of these grains to effect the needed saving of wheat. We are wholly dependent upon the voluntary assistance of the American people, and we ask that the following rules shall be observed:

First-Householders to use not to exceed a total of one and one half pounds per week of wheat products per person.

This means not more than one and three-quarter pounds of "Victory Bread," containing the required percentage of substitutes, and about a half pound of cooking flour, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals all combined

Second-Public eating places and clubs to observe two wheatless days per week, Monday and Wednesday, as at present. In addition thereto not to serve in the aggregate a total of more breadstuffs, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, containing a total of more than two ounces of wheat flour to any one guest at any one meal. No wheat products to be served unless specially

Public eating establishments not to buy more than six pounds of wheat products per month, per guest, thus conforming with limitations requested of the householder.

Third-Retailers to sell not more than one-eighth barrel of flour to any town customer at any one time, and not more than one-fourth barrel to any country customer at any one time, and in no case sell wheat products without the sale of an equal weight

of other cereals. Fourth-We ask the bakers and grocers to reduce the volume of "Victory Bread" sold by delivery of the three labam Tate fourths pound loaf when one pound was sold before the corresponding proportions in other weights. We also ask bakers not to increase the amount of their wheat flour purchases beyond 70 per cent of the average monthly amount purchased in the four months prior to March 1st.

Fifth-Manufacturers using wheat products for non-food purposes should cease such use entirely,

Sixth-There is no limit upon the use of other cereal flour and meals, corn, barley, buckwheat, potato flour. Many thousand families throughout the land are now using no wheat products whatever except a very small amount for cooking purposes, and are doing so in perfect health and satisfaction. There is no reason why all of the American people who are able to cook in their own households, can not subsist perfectly well with the use of less wheat products than one and one-half pounds a week, and we especially ask the well-to-do households in the country to follow this additional program in order that we may provide the necessary marginal supplies for those parts of the country less able to adapt themselves to so large a proportion of substitutes, in order that we shall be able to make the wheat exports that are asolutely demanded of us to maintain the civil population and soldiers of the allies

and our own army. We propose to supplement the voluntary co-operation of the public by a further limitation of distribution and we shall place at once restrictions on distribution which will be adjusted from time to time to secure as nearly equitable distribution as possible. With the arrival of harvest we should be able to relax such restrictions. Until then, we ask for the necessary patience, sacrifice and co-operation of the distributing trades.

(Signed) FOOD ADMINISTRATION.

If you run your household on three pounds of sugar a month per person, when fall comes the grocer won't have to hang up the sion, "No Sugar."
